Q: How long do I have before my password expires?
A: Passwords need to be changed every 42 days, in the event of password loss, theft or unauthorized access.

Q: What is the recommended password character standard?
A: Passwords need to have at least one upper case letter, a numerical number and be a minimum of seven characters in length. A good example password is College1.

Q: What kind of cable do I need to display my laptop image on the SMARTBoard?
A: The SMARTBoard requires that a VGA cable be connected to the laptop for proper display.
