Hours: Mondays thru Fridays, 8:00 am to 5:00 pm; and by appointment

Purpose

The Archival Gallery at Florida Memorial University is housed on the first floor of the Nathan W. Collier Library. It has been established not only to further establish historical order, but also to give a terse account of university records items that have been received and maintained throughout their life cycle.

These records are kept as accurate historical evidence of value as they have been accessioned and barcode for permanence in the University archival and special collections. The resources are definitely available for their historical and research value for academic and business usage.

Exhibits
